

The roads in our subdivision are in need of repair.

Can you help us get a free quote from Oakland County?

The roads in our subdivision are 25 years old. As discussed during the Annual Meeting back in May, the Road Commission for Oakland County (RCOC) will replace our subdivision roads if we follow their process.

The free, first step of the process is to indicate our level of interest to RCOC. As a subdivision we can do this by individually signing a form to indicate we would like to learn more about the process and the cost.

We need a minimum of 50% of our residents on each street to express interest!

Please complete the form below and sign it now. Send it to Angela at In Rhodes Management by scan/email, mail, or fax (go to our website for her contact information). Angela is collecting all signatures for our subdivision.

Please help so we can learn more about the road replacement process!

(Keep the top portion, send Angela the bottom portion)
